Where parking spaces are referred to, such space shall represent an area of not less than 9 feet by 20 feet, exclusive of driveways required to make such space accessible from public streets or alleys. Where parking requirements are referenced to floor areas, such shall be construed to mean the gross building floor area used by, or to serve, people in connection with such use, but shall not include floor areas used for vehicular parking and incidental storage or other accessory space. Where parking spaces are referenced to seats, each 18 inches of pew width may be considered as one seat. If such required parking is located other than on the lot upon which use it serves, or adjacent property permitting such parking requirements, once approved and/or provided, must be continuously maintained in the manner provided by this Ordinance, together with any additional parking facilities necessitated by expansion of floor areas and/or uses. In the case of mixed uses, the total parking requirements shall be the sum of the requirements of the various uses computed separately.

A. GENERAL REQUIREMENTS

1. For the purpose of converting parking spaces into the required or permitted parking area, plans must be submitted to show how the required or permitted parking spaces shall be arranged in the area supplied for that purpose and to indicate sufficient space for turning maneuvers, as well as adequate ingress and egress to the parking area, before a permit is granted.
2. In any district other than in R1, RR, GR, or SR where such space is required, the area of such space shall be surfaced with asphaltic surfacing, concrete, or other paving material acceptable to the Department, to prevent dust and erosion.
3. The parking of two or more commercial vehicles of more than one ton capacity on any lot in any residential district shall be considered a commercial use and is prohibited.
4. "Floor areas" shall mean the gross floor area and/or the open land area used for service to the public as customers, patrons, clients, or patients, including areas occupied by fixtures and equipment used for display or sale of merchandise. It shall not mean floors or parts of floors used principally for non-public purposes, such as storage, automobile parking, incidental repair, processing or packaging of merchandise, show windows, or for offices incidental to the management or maintenance of stores or buildings, or for restrooms or powder rooms.
5. In any case, in a Commercial C1 or less restricted district, where a lot used for automobile parking space adjoins a residence district, there shall be a solid wall of masonry not more than six nor less than four feet in height along the lot line of such lot, which lot line forms the boundary of said residence district; except where such wall

adjoins the front yard of the adjoining residential lot, said wall shall be three feet in height. Said wall shall be maintained in a neat and orderly condition by the lot owner or occupant of the C1 or less restricted district. As appropriate, on a case by case basis, an alternative selection of landscape delineation may be utilized to meet these needs as approved concurrently by the Director.

6. Any lights used to illuminate parking space in a commercial district shall be so arranged as to reflect the light away from the adjoining rights of way.

7. Except where a wall is required, a minimum six-inch high curb or bumper guard shall be constructed so that no part of a vehicle shall extend over or beyond any property line.

8. Whenever a building permit has been granted and the plans so approved for off-street parking, the subsequent use of such property shall be deemed to be conditional upon the unqualified continuance and availability of the parking provisions contained in such plans. Any use of such property in violation hereof shall be deemed in violation of this Ordinance. Should the owner or occupant of any building to whom a building permit has been granted containing off-street parking requirements so change the use to which such building is put as to increase off-street parking as required under this Ordinance, it shall be unlawful and a violation of this chapter to begin or maintain such altered use prior to compliance with increased off-street parking provisions of this section.

9. No addition or enlargement of an existing building or use shall be permitted unless parking requirements of this Ordinance are met for the entire building or use.

10. In the Case of mixed use, the total requirements for off-street parking space shall be the sum of the requirements of the various uses computed separately as specified in this section, and the off-street parking spaces for one use shall not be considered as providing the required off-street parking for any other use.

11. All parking areas, except in an R1, RR, GR, or SR District, shall be entered and exited in a forward motion of the vehicle. Sufficient space for maneuverability in compliance with this section shall be included in plans submitted pursuant to Section 103.6A.1 above.

- 1. DEFINITION:** The PAD District is an alternative to conventional land use regulations, substituting procedural protections for the requirements in Gila County’s Zoning Ordinance. The PAD District is an overlay district that shall be used only in conjunction with other zoning districts described in the Gila County Zoning Ordinance, but which will allow flexibility in the requirements of the underlying zone and shall require approval by the Board of Supervisors of a specific plan of development.

- 2. INTENT AND PURPOSE:** Gila County recognizes that in certain instances the objectives of the Zoning Ordinance may be best achieved by development of planned areas which may not conform in all respects to the underlying zoning district. Gila County further has determined that in the best interests of the health, welfare and safety of the citizens of Gila County, specific planned communities can provide better alternatives for some land development than the conventional zoning districts. The purpose of the PAD district is to encourage imaginative and innovative planning of neighborhoods, particularly with respect to diversification in the use of the land and flexibility in site design with respect to various features, including but not limited to, spacing, heights, density, open space, circulation, preservation of natural features, and innovation in residential development that results in the availability of a variety of housing opportunities, both in terms of affordability and lifestyle to all citizens and guests of Gila County; and to ensure the establishment of developments consistent with the goals and objectives of the Board of Supervisors of Gila County. All Townhouse, Condominium, and Time-Shares, together with resort, recreational and commercial activities directly related thereto shall only be in a Planned Area Development District.

In addition to the filing fee established for amendments, an additional fee of \$500.00 shall be paid by the applicant for processing the PAD request. The application shall be accompanied by such information and representations required by this Ordinance or deemed necessary by the Planning Director, which together shall comprise the application package.

AMENDMENT PROCEDURES

105.1
AUTHORITY

The Board of Supervisors may, from time to time (after receiving a report thereupon by the Planning & Zoning Commission, and after public hearings as prescribed herein), amend, supplement, or change the Zoning Map and/or ordinance regulations. Any such proposed change may be initiated by the Commission or by the application of property owners or an authorized agent of a property owner.

105.2
APPLICATION

Application for amendment shall be filed with the Community Development Division on forms provided therefore and shall be accompanied by the appropriate non-refundable fees. Upon submittal of a rezoning or specific plan application and prior to a public hearing, notification will be sent to adjacent landowners and other potentially affected citizens of the substance of the application. The applicant is responsible for written contact of all property owners within the notification area and of affected neighborhood associations, and shall offer to hold a meeting, with a specified date, for review of the proposed request. The applicant shall provide written proof of contact and offer of meeting to the Planning Department at least thirty days prior to the date of the public hearing by the Commission. The request shall not be set for public hearing without such written proof.

Upon receipt of any proposed amendment, the same shall be submitted to the Commission for a report. Prior to reporting to the Board, the Commission shall hold at least one public hearing thereon, after giving at least fifteen (15) days notice thereof by publication at least once in a newspaper of general circulation in the County seat, by posting the area included in any proposed Zoning Map change and by noticing property owners according to state law requirements. It shall not be the responsibility of the Board to maintain such posting once erected.

- A. Prior to publishing and posting a petitioned Zoning Map change the Commission may, on its own motion, delimit the extent and boundaries of such area so as to constitute a reasonable zone.
- B. Should the Commission initiate a proposed zoning amendment at the request of a person or persons, notice of such proposed change shall not be processed until the required filing fee has been paid.

- C. In the event an application is denied by the Commission and/or Board, the Commission shall reserve the right of refusal to consider a similar application within a year of the date of application.
- D. Failure of the Commission to report to the Board within sixty (60) days after date of application shall be deemed to be approval.

105.4
SUPERVISORS' ACTION

Upon receipt of the Commission's recommendation, the Board shall hold at least one public hearing within a reasonable time thereafter, after first noticing in the same manner as is required of the Commission, and may thereupon take appropriate action. It shall not be the responsibility of the Board to maintain the posting once erected.

- A. If twenty percent (20%) or more of the owners of property by area and number within the zoning area file a protest to such change, the change shall not be made except by unanimous vote.

106
BOARD OF ADJUSTMENT

106.1
BOARD STRUCTURE AND PROCEDURE

- A. There shall be one or more Boards of Adjustment, composed of not less than three nor more than five members each, one of which shall be appointed in and shall have jurisdiction in each supervisorial district in which the Zoning Ordinance has been applied.
- B. The members of each Board shall be appointed for staggered terms of four years each.
- C. The members shall be residents and taxpayers of the unincorporated area of the district from which appointed.

106.2
POWERS AND DUTIES

- A. The Board of Adjustment may interpret the zoning Ordinance when the meaning of any word, phrase, or section is in doubt, when there is a dispute between the appellant and enforcing officer, or when the location of a district boundary is in doubt.
- B. The Board of Adjustment may allow a variance from the terms of the Ordinance when, owing to particular conditions, a strict interpretation would work an unnecessary hardship, if in granting the variance the general intent of the purposes of the Zoning Ordinance will be preserved.

106.3
HEARING APPLICATIONS

Hearing application shall be filed in the office of the Zoning Inspector on forms provided therefor, together with any fee and/or charge as provided herein, none of which is refundable. Such application, together with any pertinent records, shall forthwith be transmitted to the Board, and shall be available for inspection during office hours.

106.4
APPEALS

- A. Appeals to an Adjustment Board may be taken by any person who feels that there is error or doubt in the interpretation of the Ordinance or that, due to unusual circumstances attaching to his property, an unnecessary hardship is being inflicted on him.
- B. The appeal shall state whether it is a plea for interpretation or for a variance, along with the grounds for the appeal.

- C. Any person aggrieved by a decision of the Board of Adjustment shall have the right, within thirty (30) days, to appeal to the Superior Court. The appeal shall be based on the record before the Board of Adjustment.

106.5

HEARINGS AND RULINGS

- A. Hearing shall be held by the Board within a reasonable time after filing of an application, after first causing notice to be given to parties of interest and the public, by posting the property of application, if a property is involved, and publishing once in a newspaper of general circulation in the County at least seven days prior to the hearing. It shall not be the responsibility of the Board or its agents to maintain the posting once erected.
- B. Rulings shall be rendered by the Board on any application not later than thirty (30) days after initial hearing on same, unless an extension is concurred in by the applicant.
1. In approving an application, in all or in part, the Board may designate such conditions in connection therewith as will, in its opinion, secure substantially the objectives of the Zoning Ordinance regulations, and may require guarantees in such a form as it deems proper under the circumstances to insure that such conditions be complied with. Where any such conditions are violated or not complied with, the approval shall cease to exist, and the Inspector shall act accordingly.
 2. The granting by the Board of permission to proceed on a specific development scheme or of a permit for a construction variance shall be contingent upon permits being obtained and work commencing within six months and being diligently pursued. Failure of such shall void the ruling unless a longer time has been granted by the Board.
