

Immunizations for Babies & Children

These are the shots required to attend childcare in Arizona

At birth	Hep B #1 Note: Hep B #1 is the only shot babies under 2 months must have for childcare.		
2 months	DTaP #1	Polio #1	Hib #1
4 months	DTaP #2	Polio #2	Hib #2 Hep B #2
6 month	DTaP #3	Hib #3 If Pedvax Hib or Comvax is used, the 3 rd dose of Hib is not due until 12 – 15 months of age.	
12 months	Polio #3	Hep B #3	MMR #1 MMR must be given on/after child's 1 st birthday. Doses given 1 day before birthday do not count.
15 months	DTaP #4	Hib #4 Hib #4 is not needed if Hib #3 is given at/after 12 months of age. A Hib dose at/after 12 months is required for all children under 5 years. One Hib dose given at/after 15 months of age meets the Hib requirement regardless of the total number of Hib doses received.	
15 months to 2 years	Must have 4 DTaP, 3 Polio, 1 MMR, 3 Hep B and Hib booster on/after 1 st birthday or 1 Hib dose given at/after 15 months. (+ 2 doses of Hep A in Maricopa County only)		
2 years to 3 years	Must have 4 DTaP, 3 Polio, 1 MMR, 3 Hep B and Hib booster on/after 1 st birthday or 1 Hib dose given at/after 15 months. (+ 2 doses of Hep A in Maricopa County only)		
3 years to 5 years	Must have 4 DTaP, 3 Polio, 1 MMR, 3 Hep B and Hib booster on/after 1 st birthday or 1 Hib dose given at/after 15 months. (+ 2 doses of Hep A in Maricopa County only)		
5 years and older	At kindergarten entry must have 5 DTaP*, 4 Polio*, 2 MMR & 3 Hep B. *Children receive DTaP #4 and/or Polio #3 on/after the 4 th birthday do not need additional doses to enter kindergarten.		

Schedule Note: Because children who attend child care are at great risk of exposure to illness, state law requires that some immunizations be completed at the

beginning of the “recommended” age range. For instance, although the 4th DTaP is recommended at 12-18 months, state law requires it at 15 months for children in child care settings.
