3. Not applicable.

The Grantee shall perform these activities where it is deemed necessary during a joint review between the authorized Forest Officer and Grantee prior to completion of the highway. The Grantee also shall maintain all terracing, water bars, leadoff ditches, or other preventive works that may be necessary to accomplish this objective. This provision also shall apply to waste disposal areas and slopes that are reshaped following slides that occur during or after construction.

6. The Grantee shall:

Establish no borrow, sand, or gravel pits; stone quarry; permanent storage areas; sites for highway-operation and maintenance facilities; camps; supply depots; or disposal areas within the right-of-way, unless shown on approved construction plans, without first obtaining approval of the authorized Forest Officer.

7. The Grantee shall maintain the right-of-way clearing by means of chemicals only after the Forest Supervisor has given specific written approval. Application for such approval must be in writing and must specify the time, method, chemicals, and the exact portion of the right-of-way to be chemically treated.

8. The Grantee does by the acceptance of this document covenant and agree for itself, its assigns, and its successors in interest to the property here granted or any part thereof, that the covenant set forth below shall attach to and run with the land:

a. That the Grantee shall operate the described property and its appurtenant areas and its buildings and facilities whether or not on the land therein granted as a public road, in full compliance with Title VI of the Civil Rights Act of 1964 and all requirements imposed by or pursuant to the regulations issued thereunder by the Department of Agriculture and in effect on the date of this document to the end that no person in the United States shall, on the grounds of race, sex, color, religion, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any programs or activities provided thereon; and

b. That the United States shall have the right to judicial enforcement of these covenants not only as to the Grantee, its successors and assigns, but also as to lessees and licensees doing business or extending services under contractual or other arrangements on the land therein conveyed.

9. Cultural Resources Protection - The holder, contractor, or lessee shall be responsible for the protection from damage of all identified cultural resources within the area which may be affected by their actions. In addition, the holder, contractor, or lessee shall be liable for all damage or injury to the identified cultural resources caused by their actions. The holder, contractor, or lessee shall immediately notify the agency Project Administrator if any damage occurs to any cultural resource and immediately halt work in the area in which damage has occurred until approval to proceed has been granted by the

Project Administrator after consultation with the Forest Archeologist. All provisions of the Region 3 Cultural Resources Damage Assessment Handbook are incorporated by reference herein.

10. Native American Grave Protection and Repatriation Act - Pursuant to the Native American Grave Protection and Repatriation Act (NAGPRA) 25 USC 3002(d); 43 CFR Part 10.4, if any human remains, funerary objects, sacred objects, or objects of cultural patrimony are discovered during the course of ground disturbing activity, the holder will immediately cease activity in the area of the discovery and will make a reasonable effort to protect the remains and objects. The holder will provide immediate telephone notification of the discovery to the Forest Service, and will follow up with written confirmation to the authorized officer. The holder will not resume the activity that resulted in the discovery until the authorized officer gives written approval. Approval to resume the activity, if otherwise lawful, will be given thirty (30) days after certification by the authorized officer of the holder's written confirmation of the discovery, or at any time that a written binding agreement is executed between the Forest Service and the affiliated tribes adopting a recovery plan for the remains and objects.

The Chief, Forest Service, may terminate this easement, or any segment thereof, (1) by consent of the Grantee, (2) by condemnation, or (3) after a five (5) year period of nonuse, by a determination to cancel after notification and opportunity for hearing as prescribed by law.

IN COMPLIANCE with the conditions set forth in the foregoing deed, the Grantee certifies, and by acceptance of this deed, accepts the right-of-way over certain land herein described and agrees for itself,
