

The Great Arizona Shakeout

You are invited to join thousands of people who will Drop, Cover, and Hold On on October 18th at 10:18 a.m.* in the 2012 *Great Arizona ShakeOut!*

Each time an earthquake occurs in Arizona, the news media and public asks, “Does Arizona have earthquakes?” Short answer: Yes!

In comparison with California, Nevada, and Utah, major earthquakes here are infrequent. But each year, hundreds of earthquakes do occur in and around Arizona. Taking steps now to prepare your family and home will help mitigate the effects of moderate to severe earth shaking.

Do you travel to earthquake prone areas? If so, this event is a great learning tool to help prepare your family for earthquakes.
