

Gila County Division of Health and Emergency Services Volunteer Program

Public Health Emergency Preparedness has partnered with Emergency Management to develop a unique, multifunctional volunteer program that is capable of responding to a wide variety of emergencies.

Our goal is to identify non-medical and medical persons who are willing to assist the Division in all types of emergencies. Whether you are still working, retired, going to school, or want to be involved in your community, your willingness to serve will be invaluable in helping meet our community needs.

We need volunteers throughout the county in order to serve all our residents. All volunteers will be provided an appropriate level of orientation or training.

If you are willing to serve in this important effort, or if you would like more information, please contact the program Volunteer Coordinator at 928-402-8805 or by email: lasberry@gilacountyaz.gov

Volunteer Application Instructions:

Print the attached Volunteer Application and mail or deliver the completed form to:

Leana Asberry
